Summary

Detail-oriented and innovative programmer with over 6 years of experience in developing robust software solutions. Proficient in cutting-edge technologies and frameworks, I am passionate about building efficient applications that enhance user experiences. My expertise in **Machine Learning** and **Data Science** allows me to create intelligent solutions, while my strong background in web development enables me to deliver high-quality products.

Experience

Software Engineer

Tech Innovations Inc. - West Brenda, CA

March 2019 - Present

- Spearheaded the development of an **E-commerce Platform** that increased client sales by 35% within the first year of launch. Utilized **React** for the front end and **PostgreSQL** for the backend.
- Led a team to implement a **Payment Processing System**, ensuring PCI compliance and improving transaction speed by 50% through optimized algorithms.
- Developed a **Real-time Chat System** employing **WebSocket** technology, enhancing customer support response times by 70%.

Junior Developer

NextGen Solutions - West Brenda, CA

June 2017 - February 2019

- Collaborated in the design and deployment of a versatile **Web Application** that streamlined internal processes, resulting in a 20% reduction in operational costs.
 - Actively contributed to the development using **Angular** and **JavaScript**, achieving a user satisfaction rate of over 90% based on client feedback.
-

Skills

- **React** (Expert)
 - **Rust** (Expert)
 - **Machine Learning** (Expert)
 - **Redis** (Expert)
 - **PostgreSQL** (Advanced)
 - **Kubernetes** (Advanced)
 - **JavaScript** (Advanced)
 - **Angular** (Advanced)
 - **Vue.js** (Intermediate)
 - **C++** (Intermediate)
 - **Git** (Intermediate)
 - **Data Science** (Advanced)
-

Projects

- **E-commerce Platform:** Developed a scalable platform that supports over 10,000 concurrent users, resulting in a 35% increase in sales.
- **Payment Processing System:** Engineered to handle over 5,000 transactions per minute, ensuring maximum uptime and security.
- **Real-time Chat System:** Implemented features that allow for instant messaging between users, reducing average response time from hours to seconds.

- **Web Application:** Designed a user-friendly interface that improved employee efficiency and satisfaction, leading to a 20% reduction in task completion time.
-

Education

Bachelor of Science in Computer Science

University of West Brenda - West Brenda, CA

Graduated: May 2017

Certifications

- **Google Cloud Professional Cloud Architect** - Google Cloud, 2021
-

Additional Information

- Passionate about open-source projects and regularly contribute to GitHub repositories.
- Actively participate in local tech meetups and hackathons to stay updated with industry trends and network with fellow developers.
