William Bonilla

Email: perrydavid@example.net

Location: Port Deborahview

Summary

Dedicated and detail-oriented software developer with over 5 years of experience in building high-quality web applications and payment processing systems. Proficient in modern frameworks and technologies, with a strong focus on delivering efficient and scalable solutions. Passionate about learning and adapting to new technologies to enhance user experiences and optimize processes.

Experience

Software Developer

Tech Innovations Inc. — Port Deborahview, WA

June 2020 - Present

- Developed and maintained a **web application** for e-commerce, resulting in a **25% increase** in user engagement through improved UI and performance optimization. - Designed and implemented a **payment processing system** that handles over **10,000 transactions daily**, ensuring compliance with industry security standards. - Collaborated with cross-functional teams to integrate APIs, enhancing the application's functionality and user experience.

Junior Developer

Solutions Unlimited — Port Deborahview, WA

January 2018 - May 2020

- Assisted in the development of a **mobile app** that achieved **4.5 stars** on the App Store, focusing on efficient coding practices and user interface design. - Contributed to the migration of legacy systems to **Docker** containers, improving deployment efficiency by **30**%. - Engaged in code reviews and mentoring sessions, fostering a collaborative team environment.

Skills

- Node.js (Advanced)
- Angular (Advanced)
- Redis (Advanced)
- PostgreSQL (Advanced)
- Jenkins (Expert)
- Docker (Intermediate)
- Kubernetes (Intermediate)
- React (Intermediate)
- Django (Beginner)
- MongoDB (Beginner)
- Go (Beginner)

Projects

Web Application

 Developed a full-stack web application utilizing Angular and Node.js, integrating with PostgreSQL for data management. The project improved client satisfaction scores by 40%.

Payment Processing System

 Engineered a robust payment processing system that streamlined transactions and reduced processing errors by 15%, utilizing Redis for caching and Jenkins for CI/CD pipelines.

Mobile App

 Collaborated on a mobile application project that included user authentication and real-time data synchronization, achieving a user retention rate of over 70% within the first three months of launch.

Education

Bachelor of Science in Computer Science
University of Port Deborahview — Port Deborahview, WA

Graduated: May 2017

- Relevant Coursework: Data Structures, Web Development, Software Engineering,

Cloud Computing.

Certifications

- Certified Kubernetes Administrator
- Google Cloud Professional
- Docker Certified Associate

Additional Information

- Passionate about open-source projects and contributing to community initiatives.
- Actively participating in local tech meetups and workshops to enhance skills and network with industry professionals.
