Ms. Debbie Mills MD

Email: justinfoster@example.org
Location: North Barry

Summary

Dynamic and results-driven programmer with over 5 years of experience in developing robust software solutions. Proven expertise in **JavaScript** and **MongoDB**, with a solid understanding of microservices architecture and containerization using **Docker**. Passionate about creating efficient, user-friendly applications and continuously improving skills in emerging technologies.

Experience

Senior Software Developer

Tech Innovations Inc. – North Barry, CA
March 2020 - Present
- Led the development of a **real-time chat system** that improved user engagement by 40%, integrating **JavaScript** and **MongoDB** for seamless communication. - Collaborated with cross-functional teams to design and implement a **microservices architecture**, enhancing system scalability and reducing downtime by 25%. - Implemented CI/CD pipelines using **Jenkins**, which reduced deployment time by 50%.

Software Engineer

E-commerce Solutions LLC – North Barry, CA
January 2018 - February 2020
- Developed an **E-commerce platform** that supported over 10,000 concurrent users, utilizing **JavaScript** and **MongoDB** to handle transactions efficiently. - Optimized

database queries, resulting in a 30% reduction in response time for product searches. - Assisted in the transition to **Docker**, containerizing applications for improved deployment consistency.

Junior Developer

Web Applications Corp. – North Barry, CA
June 2016 - December 2017
- Contributed to the development of various **web applications**, gaining hands-on experience with **JavaScript** and **Microservices**. - Participated in code reviews and collaborated with senior developers to implement best practices in software development.

Skills

- **JavaScript**: Advanced
- **MongoDB**: Advanced
- **Microservices**: Intermediate
- **Docker**: Intermediate
- **Jenkins**: Intermediate
- **Go**: Beginner

Projects

- **E-commerce Platform**: Designed and implemented a scalable e-commerce solution that facilitated a 50% increase in sales during peak seasons. Utilized advanced **JavaScript** and **MongoDB** for optimized performance.
- **Real-time Chat System**: Developed a chat application that supports real-time messaging for over 1,000 users simultaneously. Focused on reducing latency and improving user experience.
- **Web Application**: Created various web applications for local businesses, enhancing their online presence and customer engagement through intuitive design and functionality.

Education

Bachelor of Science in Computer Science

State University – North Barry, CA
Graduated: May 2016
- Relevant Coursework: Data Structures, Web Development, Database Management, Software Engineering

---

Certifications

- **Certified JavaScript Developer** – JavaScript Institute, 2021
- **MongoDB Certified Developer** – MongoDB University, 2020

Additional Information

- Passionate about open-source contributions and currently involved in several projects on GitHub.
- Actively attending tech meetups and webinars to stay updated on industry trends and best practices.
