Summary

Passionate and detail-oriented software developer with over 5 years of experience in building scalable web applications and developing innovative software solutions. Proficient in a variety of programming languages and frameworks, with a strong focus on front-end development. Known for delivering high-quality code and creating user-friendly interfaces. Eager to leverage my skills in a dynamic team environment to drive project success and enhance user experiences.

Experience

Software Developer
Tech Innovations Inc., Lake Stephenhaven
June 2020 - Present

- Developed a **Real-time Chat System** using **Angular** and **FastAPI**, enhancing communication for over 1,000 users with an average response time of under 200ms.
- Led a team of 4 in creating an **E-commerce Platform** that increased sales by 30% within the first quarter post-launch, employing **TypeScript** for robust application structure.
- Implemented CI/CD pipelines for deployment, improving deployment efficiency by 40% through **DevOps** practices.
- Collaborated with cross-functional teams to deliver a **Data Analytics Dashboard** for business insights, which contributed to a 25% increase in data-driven decisions.

Junior Developer
Creative Solutions Ltd., Lake Stephenhaven
January 2018 - May 2020

- Assisted in the development of a comprehensive **Web Application** that streamlined client operations, reducing manual processes by 50%.
- Gained hands-on experience with **React**, contributing to several components and enhancing user interfaces based on user feedback.
- Wrote unit tests and performed code reviews, ensuring code quality and maintainability across projects.

Skills

- **Angular**: Advanced
- **TypeScript**: Intermediate
- **FastAPI**: Intermediate
- **DevOps**: Intermediate
- **React**: Beginner

Projects

- **Real-time Chat System**: Created a fully functional chat application with features like user authentication, message history, and real-time updates.
- **Web Application**: Developed a multi-user platform that facilitated project management, integrating various APIs for enhanced functionality.
- **Data Analytics Dashboard**: Designed an interactive dashboard for visualizing key metrics, leading to improved reporting capabilities for stakeholders.
- **E-commerce Platform**: Architected a scalable online store with a user-friendly interface, integrating secure payment gateways and inventory management.

Education

Bachelor of Science in Computer Science

Lake Stephenhaven University

Graduated: May 2017

- Relevant Coursework: Web Development, Software Engineering, Database Management Systems

Certifications - Certified DevOps Practitioner - 2021 - Angular Development Certification - 2020

Personal Interests

In my spare time, I enjoy contributing to open-source projects, exploring new technologies, and participating in hackathons. I also love hiking and photography, which help me maintain a balanced lifestyle away from the screen.
